### **GraceWorks Ministries, Inc. <http://graceworksministries.net/>**

GraceWorks Ministries, Inc. was founded in 1995, when area concerned citizens and faith leaders came together and decided Williamson County needed a central place to send people who needed help with food, clothing and financial assistance. By pooling church resources with private and public sectors, GraceWorks was able to provide more help for many needs to better serve our community, rather than duplicating efforts. Today, GraceWorks has expanded upon these relationships to establish a referral network with other agencies to provide help for immediate needs and long-term resources. GraceWorks focuses on four areas—family support, instructional programs, seasonal needs and hunger prevention. Through its many programs, GraceWorks fulfilled 50,069 needs valued at \$4.5 million in 2015.

**High Hopes Development Center** <http://www.highhopesforkids.org/>

High Hopes Development Center was established in 1984 by five Middle Tennessee families who recognized their children's needs were not being met in local preschools. Each of these families had a child with a special need or chronic disease and they found themselves driving to several locations weekly to receive all of the therapy services needed. These visionaries were determined to create a place where their children's needs could be met, both academically and therapeutically, and where their children would be educated among their typically-developing peers.

### **American Red Cross—Tennessee Valley Region**

<http://www.redcrossblood.org/tennesseevalley>

American Red Cross Biomedical Services plays a critical role in our nation’s health care system. It is the largest single supplier of blood and blood products in the United States, collecting and processing approximately 40 percent of the blood supply and distributing it to about 2,600 hospitals and transfusion centers nationwide. The Red Cross also plays a leading role in protecting the safety of donors and patients and increasing the availability of blood. It has been among the first to help develop and implement testing for infectious diseases and is frequently the single major contributor to clinical trials to improve blood safety. Providing life-saving blood and blood products to patients is a key component of the Red Cross mission to help people in times of emergency and disasters.
