

Medical Operations Registered Nurse- Internship

The Mental Health Cooperative is a mental health agency that incorporates intensive case management, psychiatric/clinic services and 24 hour emergency psychiatric services into an integrated system of care. Our services assist children and adults who have a serious mental illness to live successful and satisfying lives in the community and recover from the devastating effects of the illness.

Currently, we are looking for bachelor level nursing majors in their senior level course work. As interns, students will observe all aspects of the agency and gain exposure to the mental health field. Not only will interns shadow case managers and case management supervisors, they will also observe the in-patient and out-patient setting of the mentally ill population.
