NAME, IMAGE, and LIKENESS INSTITUTIONAL PROCEDURES for STUDENT-ATHLETES

As a member of the Tennessee Community College Athletic Association (TCCAA), Columbia State Community College (the institution) supports equitable opportunities consistent with the educational objectives of the institution and student-athlete. The institution recognizes the changing landscape of collegiate athletics and the intersection of student-athletes' rights and athletic participation. The framework in these procedures seeks to allow for and support the successful two-year college athletic experience, to ensure the ability to transfer without loss of eligibility to the four-year school of a student-athlete's choosing, and to provide consistency among TCCAA institutions.

I. GENERAL

- A. Student-athletes, faculty, and staff must follow any and all applicable requirements of the institution, NJCAA, and/or TCCAA relating to Name, Image and Likeness (NIL) activity. For purposes of these procedures, "NIL activity" means any activity in which a student-athlete's NIL or personal appearance is used for promotional purposes by a non-institutional entity or person, including for use by the individual prospective student-athlete or student-athlete, a commercial entity, or a non-institutional non-profit or charitable entity, regardless of whether such use is compensated or uncompensated.

 - 2. Receiving compensation for supervision of physical education, playground, or recreational activities.
 - 3. Receiving compensation for NIL activity to promote any commercial product or enterprise, or public or media appearance so long as it does not conflict with the institution's existing partnerships, sponsorships, and agreements.

including those that might render them ineligible or cause their removal from an athletics team.

- E. Nothing in these procedures shall impact the institution's right to use the name, image, or likeness of student-athletes in accordance with NJCAA and TCCAA bylaws and policies. Student-athletes will continue to participate in institutional promotional activities such as appearances, autograph signings, digital content creation, photo shoots, and similar activities in accordance with existing rules, but cannot be paid by the institution to participate in any such activity.

IV. AGENTS

- A. Per NJCAA bylaw Section 4.B.4, student-athletes will immediately forfeit eligibility if they reach a written agreement of any type with an agent or advisor to represent the

student-athlete or accept transportation, meals, lodging, entertainment, or gifts from an agent or advisor.

- B. Although limited negotiations with an agent or advisor will not cause a student-athlete to be deemed ineligible, student-athletes are cautioned to ensure that any contact with an agent or advisor is consistent with NJCAA bylaws and will not result in a student-athlete's ineligibility.

V. CONSIDERATIONS FOR STUDENT-ATHLETES

- A. Student-athletes should be aware that receiving compensation for NIL activity is income and could impact their financial aid, especially for those receiving Pell Grants or other need-based aid. To the extent that a student-athlete receives need-based financial aid, an institution may lower need-based financial aid as a result of compensation earned for the athlete's NIL activity. Institutions will treat compensation earned by student-athletes in the same manner as the institution treats compensation earned by other students with equivalent levels of financial need. Student-athletes are encouraged to consult with the financial aid office in advance of engaging in any NIL activity to fully understand these potential impacts.
- B. Entering into NIL agreements could also create tax liability. Student-athletes should consult with a tax professional regarding these issues.
- C. An international student-athlete should not accept compensation from NIL activities until after the individual has confirmed that earnings from those activities will not jeopardize or adversely affect the individual's visa or immigration status.
- D. Any agreement entered into with a student athlete under the age of eighteen for NIL activity must comply with the Tennessee Protection of Minor Performers Act, T.C.A. § 50-5-201, et seq.

Such compensation for NIL activity may only be provided by a third party.
- B. Neither the institution nor any officer, director, or employee of the institution shall be involved in the development, operation, or promotion of a current or prospective student-athlete's name, image, or likeness, including actions that compensate or cause

compensation to be provided to a student-athlete or the family of a student athlete for NIL activity.

- C. The institution shall not make direct payments in exchange for athletic performance or as a recruiting inducement. An athletics scholarship award is NOT considered compensation for NIL activity.
- D. Boosters are not permitted to make direct payments to student-athletes. Boosters are allowed to engage in NIL activity to the same extent as other third parties and if done so consistently with these procedures.
- E. Student-athletes are prohibited from wearing any item of clothing, shoes, or other gear with the insignia of any non-institutional entity while wearing athletic gear or uniforms utilized by the institution or otherwise competing in any athletic competition or member sponsored event.
