

# How to install Microsoft 365 (Office 365)

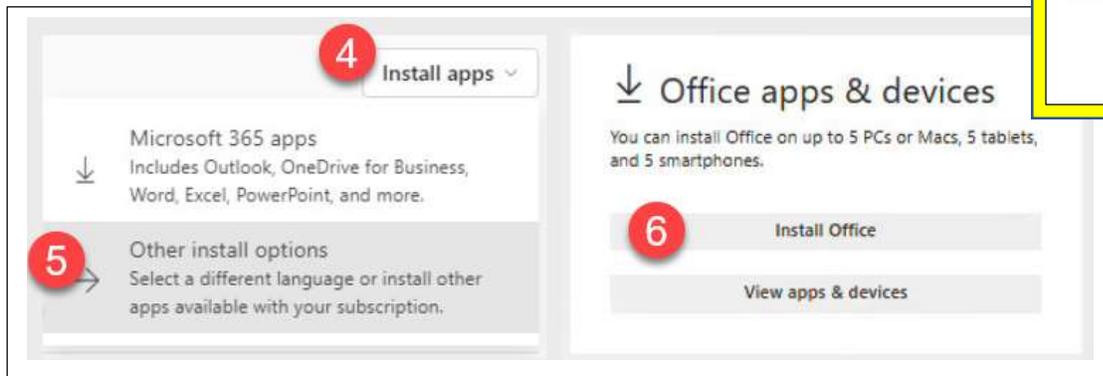

Revised 2023.02.16

Page 1 of 2

1. Go to <https://portal.office.com>
2. Enter your **FULL PVT email address** (if shown, just click it)
3. If prompted, click “Work or school account” then enter your current PVT PWD

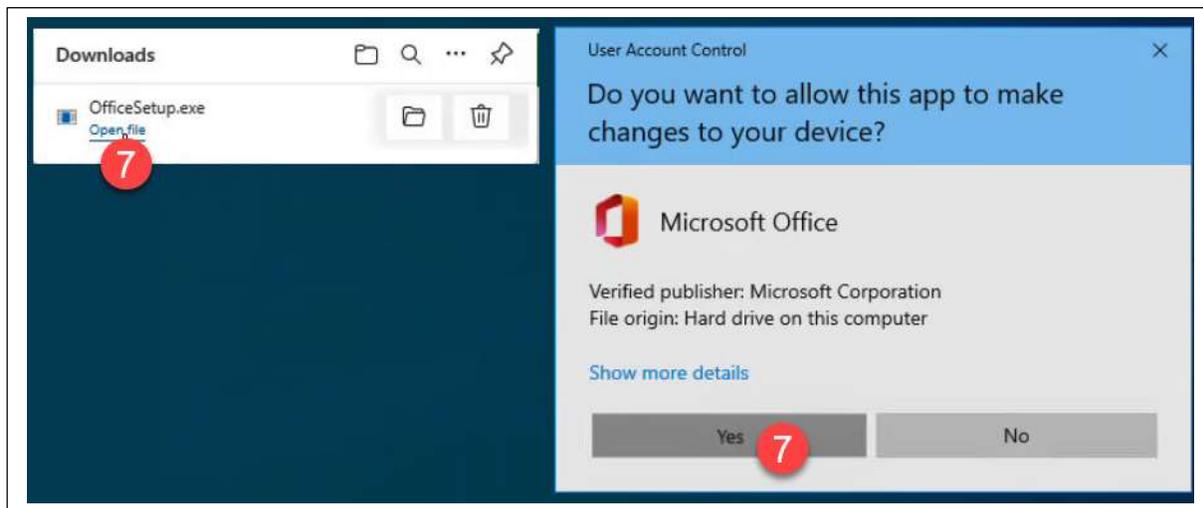

4. From the Microsoft 365 Welcome panel, **Click “Install apps”** (upper right area of screen)
5. Select **“Other Install Options”** for the installation method
6. From the **“Office apps & devices”** panel, click **“Install Office”**

★ Note: Chrome OS devices will not show Install Office. Search on the device store for apps to Word, Excel, etc.

7. Microsoft will auto detect the operating system and download the Setup.exe file. **Click to Open/Run Setup.exe** (It may be on the bottom toolbar or browser downloads area. Instructions vary for browsers). If prompted, **click Yes** to allow Microsoft Office to install.
