In determining whether a location qualifies as “noncampus property” on the basis that is both controlled by the college and frequently used by students, the College considers property to be “controlled” by the College if it is owned by the College, leased by the College, or rented by the College for a term of longer than 31 days. The College considers property that it controls to be “frequently used” if it is used on three or more distinct occasions each year. (I.e., three or more separate and distinct uses, not a single use of three days/nights or two uses that total three days/nights.)
